Norah Khaled ALshdoukhi

Software QA Tester | Software Engineer
norahksh33@gmail.com | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Detail-oriented Software Testing graduate with a B.Sc. in Software Engineering and intensive bootcamp training in manual and automation testing. Experienced in designing test cases and scenarios, web and mobile app testing (iOS), UX testing, regression testing, and bug reporting and tracking in Jira (Xray), working closely with development teams. Seeking a Software QA Tester internship to help deliver high-quality iOS and Android applications.

EDUCATION

Intensive Software Testing Bootcamp | *Saudi Digital Academy (SDA)* — *Aug 2025 – Nov 2025*

Bachelor of Science in Software Engineering | *University of Hail* — *Sep 2018 – Apr 2023*

WORK EXPERIENCE

On-The-Job Trainee, **Tamheer** *Information Technology Engineer* — *Nov 2023 – May 2024*
University of Hail – Deanship of Information Technology

Trainee, Cooperative Training — *Jun 2022 – Nov 2022*
Hail Education Department - Information Technology Department

PROJECTS

Jahez iOS – Mobile QA Project | Personal, independent project (not official company work) — *Oct 2026*
Manual testing, Jira, iPhone 16 Pro Max, iOS 18.7.8

- Executed 40 manual test cases on iOS (builds 429 and 429.1), including exploratory and regression testing; documented bugs in Jira and delivered a Test Summary Report.

Bazaar Stores – UI & API Test Automation | Team Graduation Project, SDA Bootcamp — *30 Oct 2025 – 13 Nov 2025*
Java, Selenium, Cucumber BDD, REST Assured, Postman, TestNG, Maven, Jenkins, Jira-Xray, GitHub

- Team of 6 covered 47 user stories (21 UI, 26 API) and 141 test cases (74 UI, 67 API); set up Jira-Xray, configured Jenkins for test runs and reports, and collaborated through GitHub.

VOLUNTEER EXPERIENCE

Volunteer, SDA The Hub Initiative — *Jan 2026 – Jul 2026*
Saudi Digital Academy (SDA)

- Supported initiative events in the tech field and helped achieve its goals
- Received a certificate of appreciation from the SDA CEO for the effort contributed

TECHNICAL AND SOFT SKILS

- **Testing:** Manual Testing, Test Case & Scenario Design, Bug Reporting & Tracking, Regression Testing, Exploratory Testing, Mobile App Testing (iOS), UX Testing, Test Reporting, API Testing, UI Automation, BDD
- **Tools:** Jira, Xray, Postman, Selenium WebDriver, Cucumber, JUnit5, TestNG, REST Assured, Jenkins (CI/CD), Maven, Git/GitHub
- **Programming & Scripting:** Java, Python, JavaScript, SQL, Groovy, Gherkin, JSON, HTML, CSS, PHP, C/C++
- Databases & Cloud: MySQL, SQL Server, XAMPP, AWS (bootcamp level)
- **Methodologies:** Agile/Scrum, SDLC, Page Object Model
- **Development Tools:** IntelliJ IDEA, Visual Studio Code, Microsoft Office
- **Soft Skills:** Analytical Thinking & Problem Solving, Attention to Detail, Effective Communication, Teamwork & Collaboration with Development Teams, Self-Learning & Adaptability

CERTIFICATION AND COURSES

- **IBM:** JavaScript Programming Essentials - Gitting Started with Git and GitHub - Introduction to HTML, CSS, JavaScript - Introduction to Software Engineering
- **University of London:** Web Application Development with JavaScript and MongoDB
- **University of Michigan:** Web Design for Everybody Capstone - Advanced Styling with Responsive Design - Interactivity with JavaScript - Introduction to CSS3
