Jahez iOS QA: Test Summary (personal independent project)

Metric	Value
Total test cases	40
Pass	37
Fail	0
N/A	2
Blocked	1
Pass rate of executed (Pass / (Pass+Fail))	100.0%
Priority 1 cases (TC-01 to TC-30)	30
Priority 2 cases (TC-31 to TC-40)	10
Exploratory ideas	9
Regression cases (v429.1)	10
Bugs in Jira	1
Observations in Jira	4

Environment

Device	iPhone 16 Pro Max
iOS	18.7.8
App builds	429 (main run), 429.1 (regression)
Default language	English
Dates	28/10/2026 to 29/10/2026
Tools	Manual testing, Jira

Limitations: weak-network test blocked (TC-30); Android not tested; no order or payment placed; regression limited to 10 cases.

ID	Priority	Module	Title	Steps	Expected Result	Actual Result	Status	Build	Connection	Notes / Ref
TC-01	1	Login	Login with a valid phone number	Enter a valid phone number > Continue	Verification code screen appears	Verification code screen appeared	Pass	429	Mobile data	
TC-02	1	Login	Invalid phone number (too short)	Enter 5 digits only > Continue	Clear error message; no navigation	Message "The number provided is invalid"; no navigation	Pass	429	Mobile data	
TC-03	1	Login	Empty phone field	Leave phone empty > Continue	Button disabled or message asking for the number	Message "The number provided is invalid"; no navigation	Pass	429	Mobile data	Not recorded whether the button was disabled before tapping
TC-04	1	Login	Wrong verification code	Enter a wrong code (one attempt only), then the correct code	Error message; retry possible	"Invalid verification code" shown; retry possible	Pass	429	Mobile data	Only 1 wrong attempt used (attempts are limited)
TC-05	1	Login	Log out	More > Log out	Logged out and returned to guest state	Logged out; app returned to guest state	Pass	429	Mobile data	
TC-06	1	Login	Guest adds item to cart	As guest: add an item > open Cart	Asks to log in or behaves logically	Item can be added; opening Cart asks the guest to log in	Pass	429	Mobile data	
TC-07	1	Search	Valid search	Search for a known restaurant name	Restaurant appears in results	Restaurant appeared, with other restaurants below it	Pass	429	Mobile data	
TC-08	1	Search	Invalid search	Search for "xyzxyz123"	"No results" message; no crash	"No results found" shown	Pass	429	Mobile data	
TC-09	1	Search	Empty search	Tap search without typing	No crash; clear behavior	No crash; Home screen stays as is	Pass	429	Mobile data	
TC-10	1	Browse	Food category and filter	Home > Food > apply a filter	Results match the filter	Filter "Saudi" applied; results match	Pass	429	Mobile data	Number of results not recorded
TC-11	1	Browse	Sort option availability	Open Food and Groceries; look for a Sort option	If present: results sorted correctly. If absent: N/A	No Sort option exists in Food or Groceries	N/A	429	Mobile data	Observation only; not a bug
TC-12	1	Menu	Restaurant menu	Open restaurant "Subway"	Items show names and prices	Items shown with names and prices	Pass	429	Mobile data	Restaurant: Subway
TC-13	1	Menu	Menu images	Scroll the whole menu	All images load; none broken	All images loaded correctly	Pass	429	Mobile data	Restaurant: Subway
TC-14	1	Menu	Mandatory options	Open "Subway Platter"; try to add before selecting mandatory options	Cannot add before mandatory selection	Add blocked until Select Sauces, Select Vegetables and Select Sandwich type are chosen (4 options each)	Pass	429	Mobile data	
TC-15	1	Menu	Add-on price update	Open "Subway Platter" (SAR 135); add "7up" (+SAR 10); then remove it	Price = base + add-on; returns to base when removed	135 > 145 with 7up; returned to 135 after removal	Pass	429	Mobile data	
TC-16	1	Cart	Add item to cart	Add an item > open Order	Item appears with correct name and price	"Crispers" appeared at SAR 10	Pass	429	Mobile data	
TC-17	1	Cart	Change quantity	In cart tap + then -	Quantity and price update immediately	Quantity 1 > 2; price 10 > 20 for "Crispers"	Pass	429	Mobile data	
TC-18	1	Cart	Remove item	Remove the item / reduce quantity to 0	Item removed; empty cart shown if last item	Item removed; empty cart screen with "Add more" button	Pass	429	Mobile data	
TC-19	1	Cart	Total calculation	Add two items with different quantities	Total = sum(price x qty) + visible fees	59 + 49 = 108 SAR; delivery free (restaurant offer, no coupon), delivery fee otherwise SAR 15	Pass	429	Mobile data	
TC-20	1	Coupons	Valid coupon	Apply valid coupon in cart	Discount shown; total updates	Coupon "20حلا" at restaurant IRO (desserts only): 20% off; 108 > 86.40 SAR	Pass	429	Mobile data	Coupon applies to desserts only
TC-21	1	Coupons	Invalid coupon	Enter "TEST999"	Clear error; total unchanged	"Invalid coupon. Please check the code and try again"; total unchanged	Pass	429	Mobile data	
TC-22	1	Addresses	Add address	Add item > Order > checkout; addresses appear before the invoice screen; add a test address	Address appears in list	Address saved and shown in the list	Pass	429	Mobile data	Addresses are NOT under More; they appear at checkout
TC-23	1	Addresses	Edit address	Open a saved address > edit > save	Edit saved	Saved addresses cannot be edited; delete only	N/A	429	Mobile data	Observation: KAN-7
TC-24	1	Addresses	Delete address	Delete the test address	Address removed	Address disappeared from the list	Pass	429	Mobile data	
TC-25	1	Permissions	Location permission denied	Deny location in iPhone settings > open app > detect location	Clear message or manual entry; no crash	"We're having trouble detecting your location" with enable button and manual selection	Pass	429	Mobile data	
TC-26	1	Localization	Arabic language and RTL	More > Language > Arabic; check Home, a cafe page	RTL layout; no cut or overlapping text	RTL correct; no cut text; prices and icons fine (checked Home and cafe Geisha)	Pass	429	Mobile data	Language restored to English afterwards
TC-27	1	Permissions	Notification settings	iPhone Settings > Notifications > Jahez > toggle Allow Notifications > return to app	App responds without crash	App unaffected; no in-app reminder that notifications are off	Pass	429	Mobile data	No notification option inside the app. Observation: KAN-8
TC-28	1	Non-functional	Screen rotation	Rotate device on Home, menu, cart	App stays portrait or adapts without crash	Screen stays portrait with no change	Pass	429	Mobile data	Rotation lock state not recorded
TC-29	1	Non-functional	Offline mode	In a menu: enable airplane mode > Add to cart	Clear alert; no crash or endless loading	"The Internet connection appears to be offline."; no crash or loading	Pass	429	Wi-Fi	Wi-Fi
TC-30	1	Non-functional	Weak network	Open Food on a weak network	Loading indicator, then results or clear error	Not executed: weak network unavailable	Blocked	429	Wi-Fi	Wi-Fi only; no weak network available
TC-31	2	Login	Guest browsing	Open app without logging in; browse Home and a restaurant	Browsing works without forced login	Browsing and opening a restaurant allowed	Pass	429	Mobile data	
TC-32	2	Login	Resend verification code	On code screen wait for timer > Resend	New code arrives; Resend disabled until timer ends	New code arrived; Resend disabled until timer ended	Pass	429	Mobile data	Resend used once only
TC-33	2	Login	Letters in phone field	Type, then paste, letters into the phone field	Rejected without crash	Keyboard is numeric only; paste accepted letters, then "The number provided is invalid" on Continue	Pass	429	Mobile data	Observation: KAN-6
TC-34	2	Cart	Cart persistence	Add item > force-close app > reopen	Item still in cart	"قهوة اليوم" (SAR 12) from cafe Geisha still there after reopening and entering the cafe	Pass	429	Mobile data	Checked inside the cafe page
TC-35	2	Coupons	Remove coupon	Apply valid coupon then remove it	Total returns to original	Total returned to the amount without discount	Pass	429	Mobile data	
TC-36	2	Cart	Minimum order value	Add a simple item from a restaurant with a minimum	Message with minimum; cannot proceed	"Add SAR 8 to reach minimum order value (SAR 20)"; cannot proceed (item SAR 12)	Pass	429	Mobile data	Cafe Geisha
TC-37	2	Search	Search by item name	Search for "burger"	Related items or restaurants shown	Related items and restaurants shown	Pass	429	Mobile data	
TC-38	2	Localization	Language persistence	Switch to Arabic > force-close > reopen	Arabic remains	Arabic remained	Pass	429	Mobile data	Language restored to English afterwards
TC-39	2	Addresses	Use current location	Allow location; set current location when adding address	Map centers near real location	Map centered near the real location	Pass	429	Mobile data	
TC-40	2	Non-functional	Background and return	Open a menu > background app for 2 min > return	Same screen; no crash or odd reload	Stayed on the same screen with no crash or reload	Pass	429	Mobile data	

ID	Title	Build	Date	Connection	Result	Notes
TC-01	Login with a valid phone number	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-04	Wrong verification code	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-05	Log out	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-06	Guest adds item to cart	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-07	Valid search	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-14	Mandatory options	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-15	Add-on price update	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-19	Total calculation	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-20	Valid coupon	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
TC-26	Arabic language and RTL	429.1	29/10/2026	Wi-Fi	Pass	Same result as build 429; no differences in prices or messages
KAN-4	Re-test: cart quantity has no upper limit	429.1	29/10/2026	Wi-Fi	Still reproducible	Reached quantity 54 with no limit or message (reached 313 on build 429)

#	Idea	What happened	Classification	Ref
1	Unusual phone numbers	Long number and "," show an error; Arabic digits (١٢٣) and English digits both accepted when number is valid	OK	
2	Very long search text	Long unrelated Arabic text returned a list of restaurants/cafes instead of "No results"	Observation	KAN-5
3	Symbols in search	"قهوة&" returned cafes; symbols only ("&&$&") returned no results	OK	
4	Large quantity	"قهوة اليوم" from cafe Geisha raised to 313 with no limit	Bug (Low/Minor)	KAN-4
5	Rapid back navigation	Short wait (about 0.86 s on screen recording) before next tap responds	OK	
6	Change language inside cart	App refreshes and exits the store; cart was kept afterwards	OK	
7	Rotation on other screens	Stays portrait on search, checkout, addresses, categories and stores	OK	
8	Two restaurants in cart	Each store keeps its own separate cart, saved after leaving	OK	
9	Coupon case and spaces	Upper/lower case accepted; spaces removed automatically; valid coupon accepted	OK	

Jira Key	Type	Summary	Priority	Labels	Status	Notes
KAN-4	Bug	Cart quantity has no upper limit (reached 313 for a single item)	Low	severity-minor	To Do	Severity: Minor. Re-tested on 429.1: still reproducible (reached 54). May be intended; needs product confirmation. Screen recording attached.
KAN-5	Task (Observation)	Long unrelated search text returns results instead of "No results"	Low	observation	To Do	May be intended fuzzy search
KAN-6	Task (Observation)	Phone field accepts pasted letters, rejected only on Continue	Low	observation	To Do	Keyboard is numeric only
KAN-7	Task (Observation)	Saved addresses cannot be edited (delete only)	Low	observation	To Do	
KAN-8	Task (Observation)	No in-app indication when iOS notifications are disabled	Low	observation	To Do	
(not in Jira)	Observation	Bottom navigation bar changes when entering Shops (Discover, Shops, Cart, Search, Profile)	-	-	-	Seen on 429.1; not compared with 429 (Shops out of scope); likely by design
